MID CONTINENT CABINETRY JOINS HOMESPHERE

Partnership to provide savings on top quality products to homebuilders

(Lakewood, Colo. – March 28, 2007) HomeSphere, a technology-leveraged service provider to residential homebuilders and manufacturers, has added Mid Continent Cabinetry to its growing list of Supply Chain Partners. Mid Continent Cabinetry joins nearly 70 other manufacturers currently using HomeSphere's BRI® Program to manage rebates for homebuilders and, in turn, grow their market share.

A division of Norcraft Companies LP, the fifth largest manufacturer of cabinetry in the United States, Mid Continent Cabinetry's participation in the program will allow builders to access cost savings on products offered throughout their supply chain.

"Mid Continent Cabinetry is a respected manufacturer of quality fashionable cabinetry for the home," said Glenn Renner, Chief Operating Officer for HomeSphere. "Adding this major brand to our program is a great benefit to our homebuilders."

Designed to streamline the residential building supply chain, BRI is a unique Web-based tool serving both manufacturers and builders. Manufacturers use BRI to access over 1,000 builders on the program, gaining advanced understanding of their supply chain and increased exposure for their products through an efficient rebate management program. As a result, they gain inroads to new accounts and build recognition for their products and services. Builders, on the other hand, can efficiently gain product knowledge and manage their cash-producing rebates, keeping them on the cutting edge as they trim their bottom line.

Founded in 1966, Mid Continent Cabinetry products are tested and certified by the Kitchen Cabinet Manufacturer's Association. Its products are effectively delivered to the end consumer through a network of independent dealers, distributors, and builders across the United States.

"This partnership provides a number of new opportunities for our customers as well as for Mid Continent Cabinetry to grow and strengthen its relationship with the homebuilding industry," Renner said.
