WOLF STEEL LTD. JOINS HOMESPHERE

Partnership to provide savings on top quality products to homebuilders

(Lakewood, Colo. – May 4, 2007) HomeSphere, a technology-leveraged service provider to residential homebuilders and manufacturers, has added Wolf Steel Ltd., to its growing list of Supply Chain Partners. Wolf Steel Ltd. joins nearly 75 other manufacturers currently using HomeSphere's BRI[®] Program to manage rebates for homebuilders and, in turn, grow their market share.

With over one million fireplace products in homes throughout the world, Wolf Steel's participation in the program will allow builders access to their Napoleon and Continental brands offered nationally and internationally.

"Wolf Steel provides quality products and a commitment to customer service that is very appealing to homebuilders," said Glenn Renner, Chief Operating Officer for HomeSphere. "Adding Wolf Steel to our program is a great benefit to our homebuilders, who can now access a quality product and excellent service while trimming their bottom line."

Designed to streamline the residential building supply chain, BRI is a unique Web-based service serving both manufacturers and builders. Manufacturers use BRI to access over 1,000 builders on the program, gaining advanced understanding of their supply chain and increased exposure for their products through an efficient rebate management program. As a result, they gain inroads to new accounts and build recognition for their products and services. Builders, on the other hand, can efficiently gain product knowledge and manage their cash-producing rebates.

HomeSphere will manage rebates for Wolf Steel's Napoleon and Continental brand products including wood and gas fireplaces, free standing stoves, inserts, outdoor living products and waterfall collections. Working with its customers to design and implement features that consumers want, Wolf Steel offers innovative patented technology, quality products and a dedication to service that has made them the largest privately owned North American manufacturer of hearth, waterfall and outdoor living products.

"This partnership provides a number of new opportunities for over 1000 builder customers and allows Wolf Steel to grow and strengthen its relationship with the homebuilding industry," Renner said.

###

About HomeSphere

Colorado-based HomeSphere offers supply chain services - AllTrack[®], BRI[®] and MTO's – that combine Web-based technology, market intelligence, and relationships to increase profitability for the homebuilding industry. Today more than 1,000 builders and over 70 manufacturers use HomeSphere's Web portal to connect, collect, and compete. Please visit HomeSphere at www.homesphere.com for more information.
