

AmeriVent® is a pioneer in the development and simplification of effective venting products since 1951. AmeriVent offers the most complete line of Type B Gas Vent pipe and accessories. Ensuring you can create a complete system from appliance to termination.

AmeriVent® Type B Gas Vent Advantages:

- **Snap-Lock** is the perfect vent connection. Simple and quick to secure, it eliminates the need of cutting, crimping, fitting, or screw fastening at the connector joints.
- **Safety** ensured! When properly installed, the vent cannot accidentally come apart. It offers protection against vent failure or fire hazard.
- **Complete gas venting system.** Vent sizes 3" to 30" diameters in 7 different lengths to cover everything from single unit hook-ups to multi-appliance, multi-story installations.
- **Durability** with high-quality materials and workmanship. Aluminum inner pipe heats up quickly for strong draft while galvanized outer pipe protects against corrosion and external damage.
- **Customer Service & Tech Support:** Have a question about a product or installation? Our team is readily available to take your call and make your job easier.
