Luxury Lighting Designs

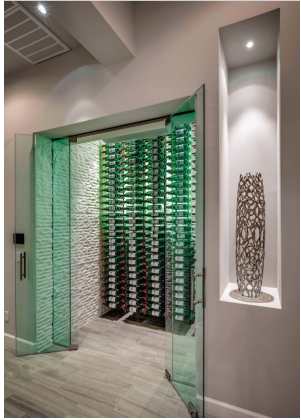

Top Trends

Combining the Art of Illumination with Today's Technology

For 25 years, Aterra Designs has been creating homes as unique as their owners. We specialize in lighting - the unsung hero of interior design. Lighting affects the mood of every space, allowing each element in a home to shine.

Top Lighting Design Trends

Toe-Kick Lighting

Used as a low level of illumination for safety and to add depth to a room

Accent Lighting

Highlight accent piece by focusing light directly on it

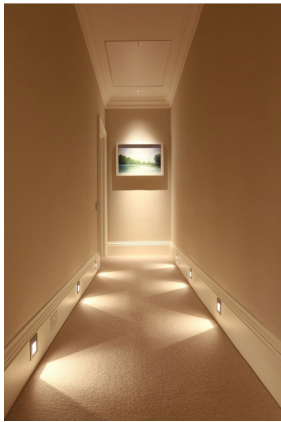

Soffit Lighting

Add a layer of light to an architectural element to provide interior mood lighting

Layering

Best concept requires the combination of overall, task, and accent lighting layers to create definition and versatility

Pathway Illumination

Step lights can be used for both safety and style

Grazing

Accentuate textured walls and make them the focal point of the room
