

# Distinctively Different

Partner with Leviton for home electrical infrastructure

For over 25 years, builders have named Leviton as the “Brand Used Most” for Lighting Controls/Switches in the annual **Builder** magazine Brand Use Study.

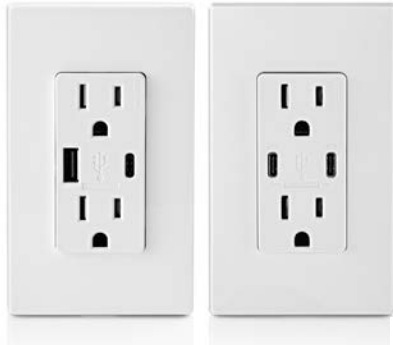

Leviton offers a wide range of products that meet the needs of homeowners for safer, smarter and more convenient living:

- Start with basic wiring devices
- Add lighting controls and sensors
- Make it smarter; stay connected in an increasingly tech driven world
- Bring it all together with the Leviton Load Center

# Start with the Basics:

Select from standard or Decora® Switches and Outlets as well as GFCIs and AFCIs for safety. Add coordinating Wallplates to finish the job for a polished appearance.

Provide the fastest charging with the right USB technology.

## Then add lighting controls and sensors:

Whether it's a dimmer, a motion sensor, or a smart dimmer, Leviton has scalable options for every application.

# Make it Smarter

- Award winning Decora Smart®. Simple to install, and even easier to use
- Designed, engineered and supported in the USA

# Provide Enhanced Illumination

The Leviton Baffle Slim Downlight, with selectable color temperature, offers the performance, ease of use and flexibility valued for today's residential and light commercial applications. Users can change the color temperature of the light between 5 different values ranging from 2700K to 5000K with a simple switch. Pair this downlight with one of the many Leviton compatible dimmer control options to adjust for the desired light level.

# Residential EV Chargers

Fast, reliable charging from the brand you trust.

# Stay connected in an increasingly tech driven world

Unparalleled selection of structured wiring, networking, audio, video, and telephone solutions, down to the jacks.

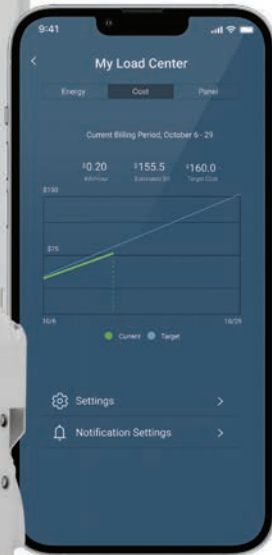

# Bring it all together with The Leviton Load Center

## with Optional Smart Circuit Breakers

Make the Leviton Load Center the electrical hub of the home. We've changed the game with the most innovative load center in the last 30 years by improving installation and adding exciting new features.

- Easy to Install
- Approachable
- Safe
- Smart

Uses Internet connectivity, a central data hub and smart circuit breakers to monitor Residential energy management.
