

Five

The high-fidelity speaker for superior sound

SONOS

Experience vividly clear, room-filling sound for music and more with Five, tuned by renowned producer Giles Martin. Enjoy control with the Sonos app, Apple AirPlay 2, and more.

Deep bass

Five's unrivaled acoustic design features three high-excursion woofers within a sealed architecture that eliminates reverb and echo.

Ultra wide soundstage

Two precisely angled side tweeters create spatial extension and rich stereo sound while a center tweeter optimizes vocal playback.

Line-in and play

Connect your turntable, CD player, or other device directly to Five using the 3.5 mm line-in port.

Smart stereo sound

When positioned horizontally, Five automatically separates the left and right channels for impressive stereo sound. Pair two speakers vertically and each smartly adjusts to mono for more detailed stereo separation and an even wider soundstage.

Voice control

Wirelessly connect a voice-enabled device, such as an Amazon Echo Dot or Google Home Mini, for hands-free control of your music and more.

Tech Specs

6 Class-D digital amplifiers
3 mid-woofers, 3 tweeters
Analog line-in with 3.5 mm mini stereo jack
