SPAN

Save more with smarter energy

SPAN reinvented the 100-year-old electrical panel with smarter controls for smarter savings

SPAN helps homeowners manage their energy costs, circuit by circuit from the SPAN Home app. Use SPAN's intelligent insights to maximize energy efficiency and lower energy bills for the long term.

Never waste a dollar
SPAN helps you manage your energy costs, circuit by circuit from the SPAN Home app.

40% more battery. 100% control.
SPAN extends your battery life by 40% during an outage and gives you precise control over your energy.

More control. More power.
Use the SPAN app to make real-time energy changes at the circuit level to suit your needs.

Save thousands in extra costs
Integrated PowerUp technology allows you to add major appliances, no electrical utility upgrade required.^

^ Requires qualification and enrollment in SPAN PowerUp to avoid a utility service upgrade
* Results from an internal study of SPAN Panel managing backup load priorities in over 1,200 simulated outage situations. Battery backup time will vary based on home energy consumption, backup priorities, and storage systems.

SPAN

More control. More Power.

SPAN integrates with leading home battery systems for the ultimate backup experience

SPAN extends your battery life by **40% during an outage*** and gives you precise control over your energy. Back up your entire home, change room and appliance priorities on the fly, and instantly check how long your battery will last.

Traditional panel + battery

BATTERY LIFE

Limited backup duration

BACKUP POWER MANAGEMENT

$$$

Backup loads panel + installation costs + backup limitations. No Backup Overload Protection

WHOLE-HOME BACKUP

Partial-home backup with limited backup loads during an outage and no estimated time remaining

COST SAVING ENERGY INSIGHTS

No energy insights or estimated remaining backup

SPAN Panel + battery

Extended backup duration—SPAN unlocks 40% longer battery backup on average*

No backup loads panel needed and includes automatic Backup Overload Protection that prevents brownouts and service calls for battery resets

Flexible, resilient backup with circuit-level prioritization and estimated time remaining in the SPAN Home App

Centralized home energy dashboard helps you save and allows you to instantly check how long your battery will last

*Results from an internal study. Battery backup time will vary based on home energy consumption, backup priorities, and storage systems.

The future of home energy

Appliances you want, with the wires you have

SPAN Panel's integrated PowerUp technology streamlines all current and future home improvement projects by intelligently managing your home's energy.

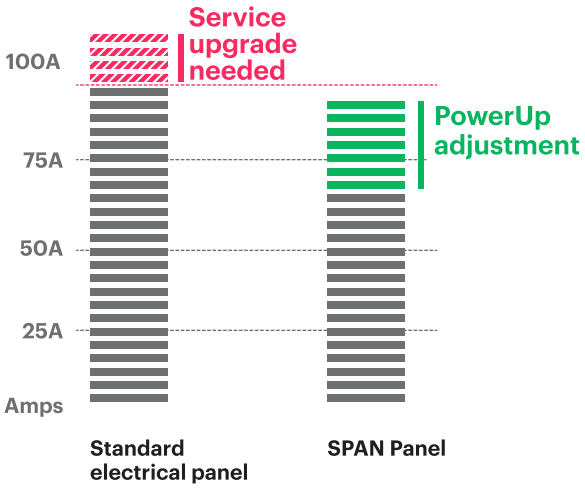

Save thousands by skipping the unnecessary electrical utility upgrade, and keep your major home projects moving on schedule, and on budget.

SPAN PowerUp™ energy management

Adding new appliances like EV chargers, heat pumps, and induction stoves often triggers costly electrical utility upgrades.

SPAN automatically balances your homes electricity use to stay within its service limit, **making it easy to add major appliances at any time by avoiding this costly inconvenience.**^^*

Charge faster, go further

SPAN Drive delivers fast, dynamic charging to any home. Compatible with all EVs using a J1772 connector— including Tesla.

Faster. Cheaper. Cleaner.
Smarter, faster EV charging— without an expensive service upgrade.

Charge with solar
Use excess solar power to charge your EV and save up to $700 a year in charging costs.+

Time-of-use charging
Add your rate plan to avoid surge pricing and charge when power costs less.

* Cost and time savings for utility service upgrades are site-specific and will vary. Check with your local utility.
^ Requires qualification and enrollment in SPAN PowerUp to avoid a utility service upgrade.
+ Savings may vary

“A long-overdue, borderline genius product...”

Our customers love us

“We are really enjoying SPAN as it makes us very aware of where our power is going and also where it comes from.

To be able to see it in such a simple way allows us to better use our energy.”

Jurrien K.

“My SPAN Panels helped me find a number of issues with various parts of my house and did a great job when I had a power outage last week—they did exactly what they were supposed to do.

Happy customer here!”

Mark D.

“I absolutely LOVE my SPAN Panel.

I get an extra day of backup, and I can turn circuits on or off remotely in case I want to change what’s backed up.”

Christopher P.
